

The 2026 PTE Hybrid Scoring Strategy Guide

The "Functional Phrases" Library

These are the "Lego bricks" of the Hybrid Strategy. They allow you to sound natural to a human marker while maintaining the rhythmic flow the AI craves.

Task Category	The "Functional Phrase" (Template)	The "Plugin" (Student Input)
Data Comparison	"A striking disparity is evident between..."	"...the highest peak and the lowest trough."
Trend Analysis	"The data trajectory suggests a..."	"...steady inclination over the period."
Situational Response	"I'm calling to enquire about the..."	"...possibility of a deadline extension."
Group Discussion	"Building on the previous point regarding..."	"...sustainable urban development..."
Summarizing	"The core argument centers on the..."	"...interconnectivity of global markets."

Bypassing Human Flags & Maxing AI Fluency

Section 1: The "Cruise Mode" Formula (Describe Image)

- **Rule:** 25 Seconds. 0 Pauses.
- **The Structure:**
 1. **Intro:** "The provided [Chart Type] depicts a detailed analysis of [Title]."
 2. **The Anchor:** "The most significant data point is [Highest Point], which stands in contrast to [Lowest Point]."
 3. **The Filler:** "Additionally, various trends are visible across the horizontal and vertical axes."
 4. **Conclusion:** "Overall, the information confirms a [Rising/Falling] trend."

Section 2: The "1-Line" Evolution (Read Aloud)

- **The Strategy:** Select 10–12 consecutive words that form a logical phrase.
- **The Execution:** Read with a downward "Full Stop" intonation. Do not rush; maintain a "News Anchor" pace.
- **Warning:** Never restart a sentence. If you trip, keep moving.

Section 2: The "1-Line" Evolution (Read Aloud)

- Instead of: "The speaker talked about..."
- Use: "The lecture articulated the nuances of..."
- Instead of: "It is a big problem..."
- Use: "This presents a multifaceted challenge for..."
